

Topic: **Reservoir Committee Agenda Item 2-4** **2018 Aug 16**

Subject: **Coordinated Activities with Reclamation**

Requested Action:

No action requested. Informational item.

Detailed Description/Background:

- The Bureau of Reclamation has a legislative requirement to provide Feasibility Report to the Sites Project Authority by August 31, 2018. Using funds appropriated from the WIIN Act, Reclamation has contracted with an AECOM/Jacobs/J-B Comm team to prepare the Feasibility report and additional pre-construction engineering tasks. The final Feasibility Report is moving through the internal, policy and Commissioner’s review. Sites should expect to receive the Feasibility Report on schedule.
Reclamation, in coordination with Sites Authority staff, will be initiating certain pre-construction engineering design refinements. Additional information regarding the scope and schedule of this work will be presented at future meetings.
- Staff will provide a status on amendments to existing agreements and additional agreements needed in Phase 2 .

Prior Reservoir Committee Action:

None.

Fiscal Impact/Funding Source:

No impact. Funds for this work are appropriations under the WIIN Act
