GOVERNANCE AND INTERNAL ORGANIZATION
Discuss and Consider request for membership on Sites JPA by Sites Reservoir Investor Districts of Northern California
Four water districts (Colusa County Water District, Orland Artois Water District, Westside Water District, and Proberta Water District), that have sent letters expressing interest in water supply benefits from, and investing in, Sites Reservoir, have requested to be added as Members to the Sites JPA Board. The Joint Powers Agreement requires a 75% majority vote of the Sites JPA Members to allow additional seats to the Board. Sites JPA Directors will need to have their Member agencies agendize and vote to add any additional seats to the Board.

Colusa County and TCCA have voted to add the additional seats to the Board. Chair McDaniel reported that Glenn County Board of Supervisors discussed the issue, the consensus of the Board of Supervisors was to support the proposal to add the additional seats, and that the issue will appear on their next Glenn County agenda as an action item. Director Kimball said YCFC&WCD board would like more information regarding the long-term structure of the Board. Director LaGrande recommended to the other members to accept the new board seats. Director Bransford stated that there needs to be clarification of how the Board will be structured for the long-term after adding additional seats to the Board.
Director LaGrande moved to have the Sites JPA recommend that the Member agencies approve the request by the four districts (Colusa County Water District, Orland Artois Water District, Westside Water District, and Proberta Water District) to be added as Members of the Sites JPA, seconded by Director Vann, motion passed by following vote:

AYES: Directors McDaniel, Vann, Richter, and LaGrande
NOES: Directors Kimball, Durst and Bransford

**Discuss and Consider Revisions to the Sites Joint Powers Authority Agreement**
Counsel has recommended that the Agreement be reviewed and clarified. Discussion was held regarding the questions that have risen regarding the Sites JPA Agreement. TCCA General Manager Jeff Sutton and Counsel John Kenny have been reviewing the document and need additional direction from the Board to address certain sections of the Agreement.

Director Durst moved to have Counsel John Kenny and TCCA General Manager Jeff Sutton propose technical language clarifications to the Sites JPA Agreement, based on the input received from the Board, and to leave the spending limit at its current amount. The motion was seconded by Director Richter and passed by the following vote:

AYES: Directors McDaniel, Bransford, Richter, Durst, and Kimball
NOES: Directors Vann and LaGrande

The Board recessed at 3:28 p.m.

The Board reconvened at 3:35 p.m.

**Discuss and Consider roles and responsibilities of the Board Officers and the Executive Committee (Coordinating Committee)**
Due to time constraints it was agreed to cover this item under Agenda Item 7d -- Board Structure Concepts.

**Consultation Committee Formation**
This agenda item was tabled due to time constraints.

**REGULAR BUSINESS**

**Critical Path Items**

**Department of Water Resources and U.S. Bureau of Reclamation MOU Status**
It was reported that the Memorandum of Understanding prepared by the U.S. Bureau of Reclamation (USBR) is ready for signature. USBR will be sending the MOU to the Sites JPA for signature, after which it will be returned to USBR for their signature.

The letter to Department of Water Resources (DWR) was sent on May 15, 2015, and a response has not yet been received.

The General Managers' Technical Group will be meeting later in June to discuss the tasks and budget for presentation to the Sites JPA.
Committee Reports
The Water Users/Investor Ad-Hoc Committee received a letter of interest from the Garden Highway Mutual Water Company. It was also reported that Western Canal Water District may have interest.

Meeting Reports
None.

Board Structure Concepts
Chair McDaniel provided a proposal (see attachment) to clarify the roles and responsibilities of the Board officers. He stated that the Sites JPA Agreement provides minimal definition and direction as to the duties of the officers, and suggested defined duties and responsibilities for each officer of the Board (Chair, Vice Chair and Secretary/Treasurer).

Chair McDaniel discussed his outline (see attachment) of a proposed governance structure for the Sites JPA that would accommodate additional members, separate the Board into three categories, and set the number of seats on the board according to water supply allotments.

CLOSED SESSION
Closed Session (Government Code Section 54957) Public Employee Appointment
Title: General Manager
The Board went into closed session at 4:05 p.m.

The Board returned to open session at 4:50 p.m.

Chair McDaniel reported that the Board met in Closed Session, pursuant to Government Code Section 54957, during which the Board heard a report and took no action.

A Special Board meeting will be held at 1:30 p.m. on Wednesday, June 17, 2015, at the Westside Water District.

ADJOURNMENT
The meeting adjourned at 4:56 p.m.

Respectfully Submitted,

Kim Dolbow Vann
Secretary to the Board

Attest a true record of proceedings made and taken at the above foregoing meeting, our consent thereto and our presence thereat.

Leigh McDaniel
ATTACHMENT

Item 6 c.
Clarify the roles of the Chair, Vice Chair and Secretary (Treasurer) roles. What are the allowable duties of the officers?

Again the JPA Agreement states the Chair will preside over Board meetings. No other duties are defining in the Agreement. The current Chair recommends the following additions/duties be added to the Agreement to clarify the Chairman duties in Article 3.6.1. Chair’s duties will include:
1. Conduct meetings using Roberts Rule of Order
2. Form committees and assign Directors to committees as appropriate.
3. Oversee/prepare agendas with the assistance of the Secretary and Staff.
4. Collaborate closely with the Vice-Chair on all matters of the JPA
5. Call special meetings as needed.

These additions will also apply to the vice chair when the chair is absent.

Add additional clarification the Secretary role in Article 3.6.2.
1. The Secretary shall be responsible for keeping the minutes and will assist the Chair (or Vice-Chair when appropriate) in preparing the agendas for the Directors of the Board. The Secretary may select staff members of JPA Members, as available or provided, to carry out these functions.

Item 7. D. Board Composition
Moving forward and working to add Members to the JPA may ultimately require a larger Board size. This is a major decision and will define the future of the JPA. We should be considering possible scenarios as a decision is imminent.

The Chair suggests one possible concept, based on discussions with fellow Directors and a structure framed using ideas from the TCCA investor group proposal. This is only presented as an item for discussion to stimulate ideas from the Board.

Consider this:

Three type of Board seats using current members as examples:

**Foundational Membership**
These would be comprised of Agencies involved in the infrastructure of the reservoir.
- GCID
- TCCA
- Colusa County
- Glenn County
- Maxwell Irrigation District
- 5 mandatory seats

**Water Users Membership**
RD 108
Philanthropic or Community Oriented Membership
Yolo County Flood Control

Assume all seats are awarded 20,000 AF of water (or shares) in the project.

Also assume that the political climate dictates Sites will not get a 50% cost share as the state wishes to spread this money about to more candidates for the Prop 1 Bond money. Assume a 40/60 distribution of Prop 1 and private investment is more palatable to the people of the State.

This gives 300,000 AF of water to the private users of the project. It would cap the number of seats on the Board at 15 using the 20,000 AF concept. The Board size could be changed using a different water option block size (30,000 AF from 20,000 AF for example).

Each JPA Member would have 20,000 AF of options of water. They could exercise their option by purchase of the water or contract their water options to others in need of water, or decide to retire from the Board. Non Foundational Members would be required to provide substantial investment dollars.

Using this argument, the Foundational Members would control 33% of the water usage and with RD 108, YCFCD, and the expected TC new members, the majority of control would remain with North State Members, satisfying the North State community. The decision to contract water north or south of Delta would be majority controlled by North State interests.
