REGULAR BUSINESS
Discuss LaMalfa/Garamendi HR 4300 Legislation
On March 19, 2014, Congressmen LaMalfa and Garamendi held a press conference for the release of bi-partisan legislation HR 4300 for Sites Reservoir. The legislation authorizes the construction of the project if the U.S. Bureau of Reclamation (Reclamation) determines that the project should move forward based on the Feasibility Study. The bill also allows for the project to be shifted to the Sites JPA, with Reclamation performing a supporting role in securing federal permits and agreements. At this time, no federal funding is allocated to the project, but funding could be added as the legislation moves forward or other legislation is enacted that could dedicate funding to authorize projects.

Director LaGrande moved to indorse HR 4300, seconded by Director McDaniel and the motion passed by the following vote:

AYES: Directors Durst, LaGrande, Bransford, McDaniel, Mensik and Tadlock
NOES: None

Discuss Outreach Effort and Landowner Meetings
Dave Ceppos, Center for Collaborative Policy, gave an update to the board regarding public outreach. With the March 19 press coverage, the public awareness of the project is growing and landowners need to be contacted. However, the recent drought conditions and limited resources have caused the meetings to be held later in the year than originally planned. Mr. Ceppos would also like the board to appoint an Outreach Committee.

After discussion, Chair Durst appointed Director Leigh McDaniel, Alternate Director Gary Evans, and Alternate Director Wade Mathis, to serve on the Outreach Committee and coordinate activities with Dave Ceppos. He also asked Alternate Director Evans to act as Chair of the committee.
The Outreach Committee will be meeting on April 8, 2014, to review land ownership information in the proposed footprints of the reservoir, construction staging areas, and pipeline; identify target dates for focused, small outreach discussions with these potentially impacted property owners; identify shared Sites JPA speaking points and approaches on how to engage these property owners in the first and subsequent meetings; and identify outreach materials that will be needed to hand out at these first meetings.

**Review Action Plan List**
Thad Bettner reported that staff has continued to expand the list of action items the Sites JPA will need to consider as the project continues to move forward. Current Alternative C is likely too expensive with construction interest whereas the smaller project will likely be easier to build, permit and to finance. The Department of Water Resources (DWR) is considering releasing a Preliminary Administrative Draft of the EIR/EIS on their website with no comment period. The EIR/EIS is almost complete; currently DWR legal is reviewing the document. Other items on the Action Plan are financing, Feasibility Study, benefits, costs, design/construction, permitting, Water Right Permit, operations, outreach, legislation/, and Sites JPA administration roles.

**Review and Consider Proposition 204 Phase II Effort**
Thad Bettner reported that staff is in the process of developing a Phase II funding request for Proposition 204 funds. Staff was directed to bring the request back to the next board meeting.

**Other Business**
Greg O'Sullivan of Shasta College is hosting an Ag Summit in Chico and has requested one of the Sites JPA Directors give an overview of the Sites project. Director McDaniel volunteered to attend the Ag Summit.
