

Topic: **Authority Board Agenda Item 6-3**

2019 August 26

Subject: **CDFW 60-day Consultation**

Requested Action:

No action requested. Discussion and possible direction to staff regarding consultation discussion with the California Department of Fish and Wildlife.

Detailed Description/Background:

By August 22, the Sites Project staff have organized and participated in 19 technical meetings with CDFW technical staff from their Water Branch and Region 2 (13 Aquatic/Operations and 6 Terrestrial, including 1 site visit for Terrestrial). Staff is being supported by key consultants from Service Area D: modeling, and Service Areas E and F: Environmental and Permitting, respectively. The purpose of these meetings is to work through items identified in CDFW's comment letter to the Draft Environmental Impact Report / Environmental Impact Statement.

These meetings are informational and collaborative in nature. The Sites Technical Team have provided project background information and analysis results covering a wide range of topics including:

- 60-day work plan, key topics
- General project overview, models used, published results
- Terrestrial species models and GIS analysis methods
- Biological metrics
- Temperature modeling of the Upper Sacramento River
- Delta outflow analysis
- Diversion flow options
- Floodplains and bypass habitats benefits and impact

The Sites Technical Team will continue working with CDFW's counterparts to address the items identified in their comment letter.

In addition to the Technical Team, 8 management level meetings have occurred with CDFW's counterparts. Representing the Sites Project is Doug Headrick, Reservoir Committee Chair, Thad Bettner, Reservoir Committee Vice-Chair and key program management staff. These meetings have also been collaborative in nature.
