3. **Discussion and Information Items:**

- 3.1 Review and comment on the CEQA process, the status of the RDEIR/SDEIS introductory chapters, and the status of outreach efforts to non-governmental organizations.

Ms. Forsythe provided an update on the CEQA process, the status of the RDEIR/SDEIS introductory chapters and the status of outreach efforts to non-governmental organizations and spoke to the following:

Overview

- California Environmental Quality Act:
 - CEQA background.
 - Authority Roles as Lead Agency for CEQA.
 - CEQA Process and Authority Decision.
- Revised Draft EIR/Supplemental Draft EIS:
 - Introductory Chapter Status.
- NGO outreach:
 - Workshops.
 - Small Group Meetings.

CEQA – What is it?

- CEQA is intended to provide decision makers and the public with information about a proposed project's **significant** effects on the environment and to:
 - Prevent significant, avoidable damage to the environment.

- Foster informed public decision making.
- Ensure transparency in governmental decision-making process.
- Encourage public participation.
- CEQA Statutes (PRC Section 21000) and Guidelines (CCR Section 15000):
 - Periodically modified by Legislature.
 - Interpreted by the Courts.
- CEQA is a Process, not a Permit.

When Does CEQA apply?

- California governmental agencies.
- Discretionary approvals by an agency:
 - Discretionary: “exercise of judgment or deliberation when the public agency or body decides to approve or disapprove a particular activity, as distinguished from situations where the public agency or body merely has to determine whether there has been conformity with applicable statutes, ordinance or regulations.”
- Applies to “projects”:
 - An activity which may cause either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment.
 - The activity approved by the public agency, not each individual permit or approval.

Agency Roles under CEQA

- Lead Agency – Authority:
 - Principle responsibility for carrying out or approving a project.
 - Prepares CEQA document: Notice of Exemption, Negative Declaration, Environmental Report (EIR).
- Responsible Agency – Permitting Agencies, Reservoir Committee Members:
 - Discretionary approval authority over project.
 - Typically relies on the CEQA document prepared by the Lead Agency.
- Trustee Agency:
 - State Agency with jurisdiction by law over natural resources held in trust for the people of California.

Determination of Impacts

- Agency must consider direct and indirect effects.
- Impacts determined by comparison to baseline physical conditions.
- Impact determinations:
 - No impact – No change.
 - Less-than-significant impact – No substantial adverse change.
 - Less than significant with mitigation – Implementation of one or more mitigation measures would reduce the impact to a less-than-significant level.

- Significant and unavoidable impact - A potentially substantial adverse change in the physical conditions of the environment would result AND mitigation is not feasible or would not reduce impact to less than significant.

Types of CEQA Documents

- Exemption:
 - Statutory and Categorical Exemptions identified in CEQA Guidelines.
 - Generally common activities that typically have no significant impacts associated with them.
- Negative Declaration/Mitigated Negative Declaration:
 - Projects with no significant impact or all impacts can be mitigated to less than significant.
- EIR:
 - Prepared for projects that may or will have significant impacts that cannot be mitigated to less than significant.

Environmental Impact Report Process

- Typical EIR Process.
- Sites Reservoir Project EIR Process.

CEQA Process Leading to Decision

- Ongoing – Administrative RDEIR/SDEIS chapters and appendices currently being prepared.
- May 2021 – All Administrative RDEIR/SDEIS chapters to be submitted to Authority in May.
- June 2021 – Review by Authority and Reclamation.
 - Select Chapters to CEQA Responsible and NEPA Cooperation Agencies for review.
- July 2021 – Request approval from the Reservoir Committee and Authority Board for release of the public RDEIR in August.
- August 26, 2021 – Release of RDEIR.
 - Schedule assumes parallel review and release of SDEIS as joint document.
- June/July 2022 – Final EIR and NOD.

Ms. Warner Herson provided a brief overview of the Introductory Chapters as follows:

Introductory Chapter Status

- Introductory Chapters:
 - Ch. 1, Introduction.
 - Ch. 2, Project Description and Alternatives.
 - Ch. 3, Environmental Analysis.
 - Ch. 4, Regulatory and Environmental Compliance.
- Chapter 2 posted to the Authority’s website:
 - Will be updated due to minor changes to the Project and other input.

- Chapters 1-4 have been sent to CEQA Responsible and NEPA Cooperating Agencies:
 - Any input will be considered when chapters are submitted with complete Administrative Draft RDEIR/SDEIS in May.

Next Steps

- Ongoing Preparation of RDEIR/SDEIS:
 - Key findings and outcomes will be presented to the Board in 2 additional parts at meetings in May and June.
 - Final briefing and recommendation for release in July.
- Public Draft release August 26, 2021.

Ms. Forsythe continued her presentation and spoke to the following:

Outreach to NGOs

- Conducted General Workshops in December:
 - Workshop 1 - December 14, 2020.
 - Workshop 2 – December 16, 2020.
- Conducted Survey:
 - In January 2021, workshop participants were asked to participate in an online survey to identify topics to be addressed in technical small group meetings.
- Formed 6 Technical Small Groups:
 - More focused, technical discussions.
 - Small groups were formed based on survey responses and workshop questions.
- Technical Small Group Status:
 - Spoke to the various Technical Small Groups, key topic areas, meetings and status of meetings.

Key Areas of Feedback and Questions to Date

- Reclamation level of participation:
 - How will Reclamation determine its preferred alternative?
 - Potential for CVP water to be stored in Sites Reservoir.
- Potential for Trinity River impacts:
 - Consideration of the Humboldt County 1959 contract in the modeling and cumulative.
 - Need for assurance/protection for the Trinity River system and Trinity River resources.
- Request to expand Tribal consultation.
- Need to consider area of origin water rights along with potential future instream flow requirements from the State Board and how those might affect the Project.
- Changes to Prop 1 benefits allocation and amounts as a result of the final CWC award and due to changes to project.
- Project flood control benefits and design considerations.
- Lack of recent habitat and species surveys due to lack of property access.

- Comparison of giant garter snake impacts from 2017 to 2021.
- Gray Lodge Biological Opinion giant garter snake measures should be reviewed and considered for the Project.
- Consider Sutter Buttes Land Trust for mitigation opportunities.
- Water quality data is limited and may not have been collected during higher flow conditions when the Project would be diverting water.
- Water quality analysis should be considering the higher concentrations and not using averages.
- Mercury and arsenic could be important considerations for rice farmers and wildlife use of rice fields.

Next Steps

- Follow on meetings being scheduled within the next couple of weeks:
 - Trinity River.
 - Terrestrial Biological Resources.
 - Water Quality Considerations.
- First meeting being scheduled for Fishery Protections and Effects.

Listed Species Considered in the RDEIR/SDEIS & BA/ITP

- 2017 vs 2021 Listed Terrestrial Species (affected in 2017 and Affected in 2021).

Discussion followed, with no action taken.
