## 3. Discussion and Information Items:

- 3.1 Review and comment on the CEQA process, the status of the RDEIR/SDEIS introductory chapters, and the status of outreach efforts to non-governmental organizations.

Ms. Forsythe provided an update on the CEQA process, the status of the RDEIR/SDEIS introductory chapters and the status of outreach efforts to non-governmental organizations and spoke to the following:

- California Environmental Quality Act.
  - CEQA background.
  - Authority Roles as Lead Agency for CEQA.
  - CEQA Process and Authority Decision.

- Revised Draft EIR/Supplemental Draft EIS.
  - Introductory Chapter Status.
- NGO outreach.
  - Workshops.
  - Small Group Meetings.

#### CEQA – What is it?

- CEQA is intended to provide decision makers and the public with information about a proposed project's **significant** effects on the environment and to:
  - Prevent significant, avoidable damage to the environment.
  - Foster informed public decision making.
  - Ensure transparency in governmental decision-making process.
  - Encourage public participation.
- CEQA Statutes (PRC Section 21000) and Guidelines (CCR Section 15000).
  - Periodically modified by Legislature.
  - Interpreted by the Courts.
- CEQA is a Process – Not a Permit.

#### When Does CEQA apply?

- California governmental agencies.
- Discretionary approvals by an agency.
- Discretionary: “exercise of judgment or deliberation when the public agency or body decides to approve or disapprove a particular activity, as distinguished from situations where the public agency or body merely has to determine whether there has been conformity with applicable statutes, ordinance or regulations.”
- Applies to “projects.”
  - An activity which may cause either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment.
  - The activity approved by the public agency, not each individual permit or approval.

#### Agency Roles under CEQA.

- Lead Agency – Authority.
  - Principle responsibility for carrying out or approving a project.
  - Prepares CEQA document: Notice of Exemption, Negative Declaration, Environmental Report (EIR).
- Responsible Agency – Permitting Agencies, Reservoir Committee Members.
  - Discretionary approval authority over project.
  - Typically relies on the CEQA document prepared by the Lead Agency.
- Trustee Agency.

- State Agency with jurisdiction by law over natural resources held in trust for the people of California.

#### Determination of Impacts.

- Agency must consider direct and indirect effects.
- Impacts determined by comparison to baseline physical conditions.
- Impact determinations:
  - No impact – No change.
  - Less-than-significant impact – No substantial adverse change.
  - Less than significant with mitigation – Implementation of one or more mitigation measures would reduce the impact to a less-than-significant level.
  - Significant and unavoidable impact - A potentially substantial adverse change in the physical conditions of the environment would result AND mitigation is not feasible or would not reduce impact to less than significant.

#### Types of CEQA Documents.

- Exemption.
  - Statutory and Categorical Exemptions identified in CEQA Guidelines.
  - Generally common activities that typically have no significant impacts associated with them.
- Negative Declaration/Mitigated Negative Declaration.
  - Projects with no significant impact or all impacts can be mitigated to less than significant.
- EIR.
  - Prepared for projects that may or will have significant impacts that cannot be mitigated to less than significant.

#### Environmental Impact Report Process.

- Typical EIR Process.
- Sites Reservoir Project EIR Process.

#### CEQA Process Leading to Decision.

- Ongoing – Administrative RDEIR/SDEIS chapters and appendices currently being prepared.
- May 2021 – All Administrative RDEIR/SDEIS chapters to be submitted to Authority in May.
- June 2021 – Review by Authority and Reclamation.
  - Select Chapters to CEQA Responsible and NEPA Cooperation Agencies for review.
- July 2021 – Request approval from the Reservoir Committee and Authority Board for release of the public RDEIR in August.
- August 26, 2021 – Release of RDEIR.

- Schedule assumes parallel review and release of SDEIS as joint document.
- June/July 2022 – Final EIR and NOD.

#### Introductory Chapter Status.

- Introductory Chapters.
  - Ch. 1, Introduction.
  - Ch. 2, Project Description and Alternatives.
  - Ch. 3, Environmental Analysis.
  - Ch. 4, Regulatory and Environmental Compliance.
- Chapter 2 posted to the Authority's website.
  - Will be updated due to minor changes to the Project and other input.
- Chapters 1-4 have been sent to CEQA Responsible and NEPA Cooperating Agencies.
  - Any input will be considered when chapters are submitted with complete Administrative Draft RDEIR/SDEIS in May.

#### Next Steps.

- Ongoing Preparation of RDEIR/SDEIS.
  - Key findings and outcomes will be presented to the Board in 2 additional parts at meetings in May and June.
  - Final briefing and recommendation for release in July.
- Public Draft release August 26, 2021.

#### Outreach to NGOs.

- Conducted General Workshops in December.
  - Workshop 1 - December 14, 2020.
  - Workshop 2 – December 16, 2020.
- Conducted Survey.
  - In January 2021, workshop participants were asked to participate in an online survey to identify topics to be addressed in technical small group meetings.
- Formed 6 Technical Small Groups.
  - More focused, technical discussions.
  - Small groups were formed based on survey responses and workshop questions.
- Technical Small Group Status.
  - Spoke to the various Technical Small Groups, key topic areas, meetings and status of meetings.

#### Key Areas of Feedback and Questions to Date.

- Reclamation level of participation.
  - How will Reclamation determine its preferred alternative?
  - Potential for CVP water to be stored in Sites Reservoir.
- Potential for Trinity River impacts.

- Consideration of the Humboldt County 1959 contract in the modeling and cumulative.
- Need for assurance/protection for the Trinity River system and Trinity River resources.
- Request to expand Tribal consultation.
- Need to consider area of origin water rights along with potential future instream flow requirements from the State Board and how those might affect the Project.
- Changes to Prop 1 benefits allocation and amounts as a result of the final CWC award and due to changes to project.
- Project flood control benefits and design considerations.
- Lack of recent habitat and species surveys due to lack of property access.
- Comparison of giant garter snake impacts from 2017 to 2021.
- Gray Lodge Biological Opinion giant garter snake measures should be reviewed and considered for the Project.
- Consider Sutter Buttes Land Trust for mitigation opportunities.
- Water quality data is limited and may not have been collected during higher flow conditions when the Project would be diverting water.
- Water quality analysis should be considering the higher concentrations and not using averages.
- Mercury and arsenic could be important considerations for rice farmers and wildlife use of rice fields.

#### Next Steps.

- Follow on meetings being scheduled within the next couple of weeks.
  - Trinity River.
  - Terrestrial Biological Resources.
  - Water Quality Considerations.
- First meeting being scheduled for Fishery Protections and Effects.
