    o 1 in-person meeting in Maxwell.

Request for Authorization to Release the RDEIR/SDEIS
  • Staff requests that the Authority Board:
    o Authorize the release of the RDEIR/SDEIS when it is ready.
    o Authorize the Executive Director to file Notice of Completion and complete other noticing requirements to initiate public review process.
  • Release of the RDEIR/SDEIS would not occur until the following:
    o The team addresses the comments received on administrative draft versions of the document.
    o TCCA and GCID consent to the release consistent with Section 2.5 of the Authority’s Joint Powers Agreement.
    o Reclamation has scheduled the release of the Notice of Availability in the Federal Register.

Discussion followed.

ACTION: It was moved by Director Houdesheldt, seconded by Director Sutton to authorize the release of the Revised Draft EIR/Supplemental Draft EIS, and further, authorize the Executive Director to file a Notice of Completion with the State Clearinghouse and complete other noticing requirements to initiate the public review process, with the caveat the Executive Director confer with the Executive Committee, if, the release date is significantly delayed from August 26, 2021. Motion carried: All Directors present voted yes.

2.2 Consider approval of a new Budget Policy to provide budget approval requirements for the Sites Reservoir Project in line with governing board expectations to become effective January 1, 2022, coincident with the start of the Amendment 3 work period. (Attachment A)
Mr. Trappaso provided an overview of a new Budget Policy to provide budget approval requirements for the Sites Reservoir Project in line with governing board expectations and the importance of approving the Budget Policy. Discussion followed.

ACTION: It was moved by Director Sutton, seconded by Director Dennis to adopt the Sites Project Authority Budget Policy, effective January 1, 2022, coincident with the start of the Amendment 3 work period. Motion carried: All Directors present voted yes.

2.3 Recognizing the Governor’s June 11, 2021 rescinding of COVID-19 stay at home orders related to public meetings and the Brown Act, direct staff to reinitiate Reservoir Committee (RC) and Authority Board (AB) meetings under standard statutory requirements starting in September 2021.

Mr. Brown, at the request of the RC, spoke to both the RC participants and the AB members regarding return to in-person meetings starting with the Joint AB/RC meeting in September. Discussion followed.

ACTION: It was moved by Director Evans, seconded by Director Sutton to direct staff to reinitiate RC and AB meetings under standard statutory requirements starting with the Joint RC/AB September 2021 meeting. Motion carried: All Directors present voted yes.

Further discussion was held as to location of where the RC and AB meetings should be held (Sacramento or Maxwell) and holding more Joint meetings, with no action taken at this time.

3. Discussion and Information Items:

3.1 Receive progress update and comment on technical considerations for Operations Coordination with Department of Water Resources and Bureau of Reclamation.

Mr. Brown expressed his appreciation to the participants which included Bill Vanderwaal, Dan Ruiz, Randall Nuebeck, Rob Kunde and Jeff Sutton for dedicating their time and efforts on this matter.

Ms. Heydinger provided an overview of the technical considerations for Operations Coordination with Department of Water Resources and Bureau of Reclamation and spoke to the following:

- Staff and small group of participants engaged in frequent and well attended discussions with Reclamation and DWR since November 2020.
• Discussions have revolved around coordinated operations with Sites and the CVP/SWP:
  o Seasonal operations focus.
  o Process for exchanges.
  o Issue specific discussions water rights, power, carriage water, COA.

Discussion Focus Areas
• Ensuring “No Harm” to CVP and SWP:
  o No harm issues have been identified thus far.
  o In general, discussion have revolved around mutual benefit and recognize that operations could change to achieve these benefits.
• Financial Considerations:
  o Federal investment assumed to be between 7 and 25 percent, nothing more specific has been determined.
  o O&M Cost – Feds and State are aware of Sites beneficiary pays approach, but no clear funding source has been identified yet.
  o SWP contract modification discussions underway separate from the technical discussions.
• Operational Considerations:
  o Annual operations of Sites diversions and releases have been reviewed.
  o Movement of Sites water through Delta would be in the transfer window.
  o and would be “non-project water.”
  o A Sites proposal for analyzing carriage water is being discussed.
• Use of Facilities and Power:
  o Power use at each facility was analyzed with Reclamation.
  o No direct impacts on CVP power identified, but exchanging water needs case by case review for potential power generation effects.
  o Sites will procure its own energy source for all non-Federal uses.
  o Warren Act contract and land entitlements appear feasible.
• Water Rights and Permitting:
  o Water Rights staff have reviewed draft parameters for the Authority’s water rights application.
  o No unsettlaeable water rights issues have been identified.
  o Coordination will continue during the development of the application.
  o Operations permitting is an outstanding discussion topic.
  o COA considerations were reviewed, and no significant issues have been identified. Use of existing COA accounting methods appear workable.
• Next Steps:
  o Commitments or decisions, especially by Reclamation, are contingent on final analysis and issuance of a ROD.
  o Technical discussion will continue.
  o An operating agreement would be between the Authority, DWR and Reclamation.
  o Final agreement to be executed following ROD (summer 2022).
• Authority staff’s focus for coming months:
  o Prepare Authority’s Operations Plan consistent with technical discussions (continued input from DWR and Reclamation).
  o Continue focused discussions on specific technical areas, e.g., operations permitting, carriage water, water rights, ensuring “no harm.”

Discussion followed, with no action taken.
